

Dear Parents,

The school's Campus Wellness Team has set some new goals for this school year. One goal is to encourage the students to walk or ride their bike to school. This goal serves two purposes. One, it will help our environment with pollution. The other purpose is to encourage our students to exercise more. We are going to set up a table by the main school doors on **October 6th** for students who would like to participate in the program. Students who would like to participate in the program will receive a punch card that will be attached to their backpacks. They will get their cards punched any day they ride their bike or walk to school during the first semester. When the card is complete they will turn it in to Coach Pirillo and receive a prize and new punch card. We look forward to seeing all the students enjoying physical activity on the way to school!

Sincerely,

Your Campus Wellness Team
